

AMBER Alert in Washington is a program of voluntary cooperation between broadcasters, cable systems, and local and state law enforcement agencies to enhance the public's ability to assist in recovering abducted children. The AMBER Alert Web Portal and the Emergency Alert System (EAS) support AMBER Alert notification. The Federal Communications Commission has authorized activation of the EAS for AMBER Alerts using the "child abduction emergency" code.

Law enforcement agencies participating in this plan are: The Walla Walla County Sheriff, City of Walla Walla Police Department and the City of College Place Police Department.

This plan is a cooperative effort between local law enforcement agencies, Walla Walla County Emergency Management and Walla Walla Emergency Services Communications Center.

AMBER Alert Program Guidelines

The AMBER Alert Program Plan is a voluntary enhancement of the Emergency Alert System. The Washington AMBER Alert Statewide Plan takes effect when the local law enforcement agency has determined in its investigation that the incident qualifies under the criteria herein and the local law enforcement agency requests the WSP to initiate activation of the EAS and the AMBER Portal.

Activation of an AMBER EAS alert will send a statewide voice message to all cooperating broadcast stations, which includes those radio and television stations and cable operators who have agreed to participate. The cooperating broadcast station will automatically retransmit the voice message, which interrupts scheduled programming.

An AMBER alert is a one-time event. Alerts may not be repeated. If additional information becomes available that would significantly increase its effectiveness, another AMBER alert may be sent, but no sooner than 30 minutes following the previous alert. The decision to send another alert must be warranted.

Law enforcement agencies wishing to utilize AMBER activation must coordinate with Washington State Patrol for activation. Law enforcement must provide the information on the AMBER Information Form on page 9.

An AMBER alert does not allow for detailed information in the message itself. Before issuing an AMBER alert, the law enforcement jurisdiction must be prepared to provide detailed information via the AMBER Portal. This may include detailed descriptions, locations and photographs.

Once the child is found or if is necessary to cancel the alert, local law enforcement must contact the WSP.

AMBER Alert Activation Approval and Scope

Approval for activation of an AMBER Alert will be by the local investigating agency.

When an agency decides to activate an AMBER Alert the agency must notify the WSP. The WSP will provide the local agency secured access to the Portal. The WSP, as the sole point of contact, will coordinate all AMBER Alert activities with the Washington State Emergency Management Division and the Department of Transportation on the local agency's behalf.

The Washington State Emergency Management Division (EMD) will activate the EAS for an AMBER Alert and is the only agency authorized to do so.

The local law enforcement agency is authorized to use the Portal to activate, update and cancel the AMBER Alert as the case warrants. Upon request of the local law enforcement agency, the WSP may activate the Portal. The portal is at <http://www.WashingtonAMBERAlert.com>.

It is very important that before requesting an AMBER Alert, the local law enforcement agency must identify a Public Information Officer for media and a point of contact for other law enforcement agencies.

When an incident does not qualify under the criteria for an AMBER Alert, the law enforcement should consider other alternatives such as press releases, the Missing Children Clearing House, CISD staff to work the tip line, TRAK system, HITS Unit, and other notification methods available at that time.

The incident must be reported to and investigated by a local law enforcement agency.

Walla Walla County Emergency Management will be prepared to partially activate the EOC to support local law enforcement when requested by the incident commander.

- a. EMD can provide limited support of the incident by providing an Emergency Public Information Officer to support the incident commander who can help coordinate news releases, news conferences and interviews.
- b. Within the three incoming telephone line capability, EMD can provide telephone-answering support of a tip or media inquiry hot line. If EOC is activated, use (509) 527-3223. This number forwards calls to two other lines in the EOC. If all three are busy, voice mail is available.
- c. Staffing the EOC may take additional time, so alert EMD as soon as possible.
- d. EMD has the capability to scan photos and post information to the Washington State AMBER web portal.
- e. EMD can provide electronic or hard copy mapping support to the incident commander.

Local Law Enforcement Checklist

All of the first four (4) elements should be satisfied, after considering all the facts and circumstances of the incident, for the incident to qualify as an AMBER Alert.

- Verify that the child is under eighteen (18) years of age and is known to be abducted and is not a runaway or thrown-away from home.**
- Verify that the abducted child is believed to be in danger of death or serious bodily injury.**
- Verify that the abduction occurred within the last 4 hours, qualifying under the criteria as an AMBER Alert, unless circumstances or the timeliness of the information warrant otherwise.**
- Verify that there is enough descriptive information available to believe that AMBER Alert activation will assist in the recovery of the child. (Must include as much of the following information as possible)**
 - Where the abduction took place. A specific physical description of the child [can include clothing worn when last seen; height, weight, age, hair and eye color, hair length, any additional distinguishing physical characteristics]
 - A physical description of the abductor [can include approximate height, weight, hair color/length, eye/skin color, clothing; any distinguishing physical characteristics.]
 - Place last seen.
 - Description of the vehicle color, make, model, and license number.
- Alert Walla Walla County EMD, if EOC support is desired.
- Complete the alert information form on page 9.
- Assemble any victim, suspect and vehicle photographs that may be available.
- Fax the form to the Yakima WSP Communications Center at (509) 249-6771). Cite on the form whether photos are available. If a victim's photo is not available, a statement in bold "NO PHOTO OF VICTIM AVAILABLE" should accompany the document.
- Follow-up the fax with an immediate phone call at (800) 283-7803. Advise WSP that you are activating an AMBER Alert and that Walla Walla County has an approved AMBER Plan.
- From WSP, obtain the web portal UserID, Password and URL to activate a Statewide AMBER Alert.
- Prepare a written news release that provides detailed information to the public. Include the information on the Alert Information Form on page 9. Include as much Victim, Suspect and Vehicle Data as is available.
- Scan photos and save in digital format such as .jpg. Post the news release and photos to the web portal <http://www.WashingtonAMBERAlert.com>
- Request WA-EMD forward tip line calls to a local number. If you choose to open the EOC, use (509) 527-3223.
- Be prepared to deal with a high volume of public tips and media inquiries.
- Prepare news releases as new information becomes available, post to the portal.
- Once the child is found or if is necessary to cancel the alert, contact WSP.

Walla Walla County Abducted Minor Broadcast Emergency Response (AMBER) Plan

Responsibilities Matrix

<i>Process Event</i>	<i>Law Enforcement Agencies (LEA)</i>	<i>Washington State Patrol (WSP)</i>	<i>WA State Emergency Management Division (EMD)</i>	<i>Broadcasters</i>	<i>WA Dept. of Transportation (WSDOT)</i>
Investigate Incident <i>(External Processes)</i>	1. Investigate and compile the initial information				
1A. Pre-authorized and Immediate Access <i>(For those having a previously approved AMBER Alert Plan or having a developed mutual aid agreement with another LEA with an approved plan.)</i>	1. Determine that the AMBER Alert criteria is met 2. Notify WSP that LEA is activating an AMBER Alert 3. Reference you have a previously approved AMBER Plan	1. Check list of approved plans and proceed immediately with providing the LEA with a UserID, Password and URL to activate a Statewide AMBER Alert 2. Begin coordination with EMD, DOT			
1B. Initial Review of AMBER Alert Request <i>(For those without a previously approved AMBER Alert Plan or having a developed mutual aid agreement with another LEA with an approved plan.)</i>	1. Determine that the AMBER Alert criteria is met 2. Request WSP to issue an AMBER Alert	1. Review and approve / disapprove LEA's request based on the approved statewide criteria 2. Notify LEA of approval
