RESOLUTION NO. 20

WHEREAS, Seven Mile Bridge, located on Seven Mile Road over the Mill Creek River, is a 113-foot total span concrete bridge that was damaged during the disaster event DR-4539 Severe Winter Storms, Flooding, Landslides, and Mudslides; and

WHEREAS, Seven Mile Bridge is structurally compromised by scour damage at an intermediate pier and is closed to traffic; and

WHEREAS, it is necessary to replace Seven Mile Bridge on Seven Mile Road; and

WHEREAS, the President signed a Major Disaster Declaration for the disaster event DR-4539 which provides eligibility for FEMA funding; now therefore

BE IT HEREBY RESOLVED that Seven Mile Bridge on Seven Mile Road, MP 2.30 to MP 2.55, Road Log No. 71370, located in Sections 16, Township 7N, Range 37E, be improved as follows:

Replace the damaged structure with a prestressed girder bridge with a 32-foot-wide driving surface. The approach roadway will be widened and reconstructed to meet current standards.

This project is declared to be a public necessity and the County Engineer is hereby authorized to proceed with the improvement for Seven Mile Bridge on Seven Mile Road. The County, acting in the public interest will use its right of eminent domain to acquire property, if necessary, in conformity with the laws of the State of Washington.

IT IS FURTHER RESOLVED that appropriation from the officially adopted road fund budget and based on the County Engineer's estimate be made in the amounts and for the purpose shown:

Intent – Gain BOCC approval to Apply for Traffic Safety Grant

Topic – Seat Belt Grant from the Washington Traffic Safety Commission

Overview - The purpose of this grant is to increase the use of seat belts by drivers and passengers in high need communities using proven and/or innovative strategies. Starting in federal fiscal year (FFY) 2021, the WTSC will prioritize seat belt use investments in areas with the highest need, staffing capacity, and interest in this type of project. You are receiving this application because the WTSC has identified your county/city as one with the greatest need for intervention, based on our annual seat belt observational survey and crash data. All grantees will be required to participate in the Click It or Ticket national campaigns, as well as conduct a project of your own design. Grantees should use local data to clearly show the need for a project focused on OP and provide a detailed explanation of what the project will look like. Enforcement is required during the national Click It or Ticket campaigns in November 2020 and May 2021, but other activities can focus on, education, and/or community engagement. The WTSC will award grants to WTSC regions in the amount of $10,000 - $50,000. It is expected that not all applicants will be awarded grants. Projects can be submitted that include multiple agencies using a multi-jurisdictional approach. If the project includes a multijurisdictional approach, the application can be submitted by a lead agency or by the regional Target Zero Manager. Projects from single agencies must be submitted by the agency applying for funds.

SEAT BELT USE EMPHASIS GRANT
APPLICATION ANNOUNCEMENT

Applications Due: August 21, 2020 by 5:00 PM to Jerry Noviello at jnoviello@wtsc.wa.gov

OVERVIEW

1. Project Background and Description

The purpose of this grant is to increase the use of seat belts by drivers and passengers in high need communities using proven and/or innovative strategies. Starting in federal fiscal year (FFY) 2021, the WTSC will prioritize seat belt use investments in areas with the highest need, staffing capacity, and interest in this type of project. You are receiving this application because the WTSC has identified your county/city as one with the greatest need for intervention, based on our annual seat belt observational survey and crash data. All grantees will be required to participate in the Click It or Ticket national campaigns, as well as conduct a project of your own design. Grantees should use local data to clearly show the need for a project focused on OP and provide a detailed explanation of what the project will look like. Enforcement is required during the national Click It or Ticket campaigns in November 2020 and May 2021, but other activities can focus on, education, and/or community engagement. The WTSC will award grants to WTSC regions in the amount of $10,000 - $50,000. It is expected that not all applicants will be awarded grants. Projects can be submitted that include multiple agencies using a multi-jurisdictional approach. If the project includes a multijurisdictional approach, the application can be submitted by a lead agency or by the regional Target Zero Manager. Projects from single agencies must be submitted by the agency applying for funds.

Period of performance: October 1, 2020 – September 30, 2021. Projects can include activity in all or part of the entire period of performance.

Approved projects will be funded using federal funds. See WTSC’s Grants Management Manual (attached) for details about federal terms and conditions.

2. Project Scope

One key value of the WTSC is innovation. We encourage applicants to assess the needs of their communities and think “out of the box” to build a project that works for you and that will contribute to the increase in seat belt use in your community. Historically, the WTSC has focused seat belt funds on high visibility enforcement (HVE). Projects funded through this application process are not bound by this requirement. We also encourage applicants to design projects that include activities
over a period of weeks or months; not just during the national Click It or Ticket campaigns.
Projects must include:

- **Participation in the national Click It or Ticket campaigns.** This participation can be overtime enforcement or an increased level of enforcement during regularly scheduled patrols. The campaign periods are:
  - November 9 – 29, 2020
  - May 17 – 31, 2021

- **A clear schedule of activities with a spenddown plan.** At the mid-year evolution, a portion of unspent funds may be reclaimed and distributed to grantees that are successfully executing their project plans.

- **A clear connection between the problem data and the project activities.** We want to know why you selected the strategy for this project and how they directly relate to the stated problems.

- **High Visibility Enforcement (HVE).** HVE is one proven option for increasing seat belt usage. Applicants may include this strategy in their project design but must adhere to the guidelines for HVE implementation. See NHTSA’s [website](https://www.nhtsa.gov) for details.

- **Multijurisdictional participation.** The purpose of this project is to provide funding to communities that have the highest need for improving seat belt use. As such, the WTSC understands that this may mean that a project focuses on a single community with a county. WTSC encourages the use of multijurisdictional efforts but understands that in some cases it may make sense for only grantees located within a single community to participate.

### 3. Application Requirements

The following items are required as part of the application:

- **Problem Data** – Tell us why your region/county/city should be prioritized for occupant protection funding. Include data such as crash data that identifies clear target areas, seat belt observational data (can be from WTSC’s report or done locally), seat belt enforcement data, etc. What populations are the most important on which to focus? The problem data should clearly demonstrate the need for this project.

  This is also a great place to show the agency’s/region’s current response to seat belt use. Include details such as current activities that are being done to increase
seat belt use, trends in seat belt citation data, community collaborations taking place, etc.

- **Commitments from local leadership** – letters of support from leaders of participating agencies. Letters of support from other community and/or local government leaders are also recommended. The purpose of this requirement is to show that increasing seat belt use rates and reduce seat belt related crashes is a priority for both local law enforcement and the community.

- **Project Description** – Tell us about this project. What strategy or strategies do you propose to increase seat belt use? Note that WTSC recommends the use of Positive Community Norms in outreach. You can contact your Target Zero Manager for more information on Positive Community Norms. How will this strategy influence the behavior of the targeted populations? What are your goals or targets? What are the activities you will fund with the grant? What objectives will you seek to accomplish in achieving the goals? What will you measure to evaluate your success in meeting your goals? Describe the timeline including key milestones and the planned start and end dates for the project.

- **Cost proposal** – Tell us how much funding you are requesting for this project and how the funding will be spent. Include a breakdown of expenses, such as paid advertising, enforcement overtime, education supplies, etc. This description should include a timeline for when costs are expected to incur throughout the project period.

4. **Program Schedule**

- **July 22, 2020** – Application announcement shared with TZMs whose regions are eligible for applying for these funds. This was done via Teams video conference so that intentions and expectations are clear and provide an initial opportunity for Q and A with the entire group.

- **August 21, 2020** – Applications due to WTSC Click It or Ticket Program Manager

- **September 11, 2020** – WTSC will announce which projects were selected for funding

- **September 14-30, 2020** – Contract negotiation

- **October 1, 2020** – Earliest possible project start date.
5. Application Review and Selection

- **Scoring Team** - All applications will be reviewed and scored by a scoring team made up of the following: WTSC staff, Washington’s Statewide LEL, and Target Zero Manager (whose region is not eligible for these funds).

- **Scoring Process** – The scoring team will individually score each application, based on the criteria listed in the sections above. Top applicants may be invited to virtually present the project proposal to the scoring team for a final round of review.

- **Selection** – The scoring team will select top applicants for funding. Priority will be given to projects that clearly show a strong need and have a clear plan for how the project will increase seat belt use rates and reduce seat belt involved crashes.

Questions can be sent in email to Jerry Noviello at inoviello@wtsc.wa.gov.

PROCLAMATION

WHEREAS, suicide is one of the most tragic and traumatic events a family and community can experience, and raising awareness of suicide is imperative to preventing it; and

WHEREAS, suicide is one of the top ten leading causes of death in the United States; and

WHEREAS, Walla Walla County recognizes suicide as a troubling and painful public health concern, impacting far too many citizens of the region; and

WHEREAS, there are complex social, environmental, psychological, situational, and biological factors which contribute to its causes; and public understanding, awareness, education, and treatment are key to preventing further suffering, human self-injury, and loss of life; and

WHEREAS, the prevention of suicide requires community-wide commitment, collaboration, caring, and encouragement to seek help and

WHEREAS, the Walla Walla Suicide Prevention Work Group, “Reach Out” and the Department of Community Health Director join in urging citizens to learn and recognize early warning signs of suicide, and to reach out to others, focusing on hope, help, and strength, now therefore

BE IT HEREBY RESOLVED by this Board of Walla Walla County Commissioners that they hereby proclaim September, 2020 as

“Reach Out Month in honor of Suicide Prevention Month”

and encourage all citizens in our county to seek information about the warning signs of suicide and prevention of suicide in order to ultimately reduce the rate of suicide in our county and nation.
